

LIS 4351 Group Design Sprint 2: School Portrait Order Form

IMPORTANT: Think carefully about the system requirements and the needs of all potential users!

At a minimum, the system needs to...

Allow for a combination of photo orders with individual and sibling orders on one form¹.

Think about the needs of the parents... one child, two children, more children!

Think about the needs of the photographer... single orders, multiple orders, more!

Include pricing information for the order packages and options.

Think about how to clarify the available package options and total prices...

Think about how to specify whether to include digital images with each order...

Miscellaneous Features (including dates when the photos will be taken).

Think about ways for the photographer to keep track of how many photos are needed...

Think about how complex this form should be / how many options are reasonable...

INDIVIDUAL SCHOOL PORTRAITS – AND SIBLINGS – SEPTEMBER 28-30

September 28: Middle School September 29: 3rd, 4th and 5th grades.

Child's Name:
I would like: <input type="checkbox"/> Color <input type="checkbox"/> or <input type="checkbox"/> Black and White

Add Digital Image to my print package.	20.00	20.00
Digital Image Only no prints	65.00	65.00

¹ If you have compelling arguments as to why this system should use multiple forms instead of just one, I'm happy to entertain them.
